Folplast declares on basis of raw material suppliers that all used materials for production of above mentioned films are allowed for food contact.

**Type or types of food that the material or article is intended to come into contact with:**

The specified polyethylene films may be used in contact with all types of food.

**Restrictions on the use of the product**

The films are not intended for heating food in microwaves or ovens.

The films are not intended for cooking or sterilization.  
The films must not be used as a toy and must not be ingested.

**Time and temperature of warehousing within food contact**

Any long-term storage at room temperature or below, including when packaged under hot-fill conditions, and/or heating up to a temperature T where  $70\text{ °C} \leq T \leq 100\text{ °C}$  for a maximum of  $t = 120/2^{((T-70)/10)}$  minutes.

The surface area to volume of 6 dm<sup>2</sup> per 1 kg of food.

**Functional barrier is not applicable**
