

Declaration of Conformity

- 1 Manufacturer/Supplier:** Baca Plastindustri AS, PO Box 23 Nesttun, N-5852 BERGEN – NORWAY
- 2 Declaration of Conformity:** This packaging is manufactured in accordance with the requirements of Regulation (EU) 2025/40 (PPWR), with particular emphasis on Articles 5-12.
- 3 Product Identification:** Product type is Polyethylene PE film
PE films for food contact and PE film for non-food contact.
Baca Item Numbers: i2256, i2257, i2258, i2259, i2260.
- 4 Material Composition:** Polyethylene PE
Additives (processing aids, colours, antistatic additive, UV stabilizers, Slip/Anti Block)
- 5 Food Contact Compliance:** Food contact applicable and food contact not applicable
If applicable, then compliant with EU 10/2011, EC 1935/2004.
- 6 Substances (PPWR Art. 5):** The material complies with PPWR Article 5 requirements on substances in packaging.
Heavy metals (Cd, Pb, Hg, Cr VI): Total concentration **100ppm** (four metals)
PFAS Compliance:
The PFAS content in the packaging is below the following limit values:
-Less than **25 ppb** for measurable PFAS substances (non-polymeric)
-Less than **250 ppb** for the sum of measurable PFAS substances
-Less than **50 ppm** total fluorine content (including polymeric PFAS)
-Design for recycling Art. 6 PPWR:
The packaging material is intended for material recycling in accordance with EN 13430:2007, where appropriate collection and recycling systems are available. Material identification code (if applicable): PELD 04.
-Recycled content in packaging Art. 7 PPWR:
The film is manufactured from virgin raw materials or manufactured from mixed virgin PE/recycled PE, due to functional requirements.
-Packaging minimization Art. 10 PPWR:
The mass, volume, and thickness of the film have been limited to the minimum technical requirement necessary to ensure the safety and hygiene of the packed food, in accordance with design optimization requirements.
-Labelling, traceability, and marking Art. 12 PPWR:
Backward traceability of the product is ensured. Each collective unit is marked with a unique production item number, product label with or without EAN code, which enables precise linking of the product with the technical documentation and laboratory test reports.
- 7. Technical documentation Art. 21 PPWR:**
The technical documentation referred to in Annex VII to the PPWR, confirming compliance with all the above-mentioned criteria, is kept at the registered office of Baca Plastindustri AS. This documentation includes reports from comprehensive screening tests for food-use products of accredited laboratory units, material specification sheets, and technical specifications of the film, and will be made available to market surveillance authorities upon reasoned request.
